OIT-0441-86

23 MAY 1986

MEMORANDUM FOR: Chief, New Building Project Office, OL

FROM:

Chief, New Building Communications Program
Office, OIT

SUBJECT: New Building Fire and Safety Requirements

1. The contractor for the Interbuilding Communications (B/B) Segment is in the design phase of the project and requires detailed specifications on all communications requirements between the original and new buildings. Technical requirements to support Fire and Safety Systems have not been defined and are critically needed in order to complete this phase. Specifically, we are seeking technical information on the types of interfaces and the number of links/connections required.

2. This information is needed by 6 June 1986. Please contact [redacted] on [redacted] black or [redacted] secure for coordination.
